

FPI-2300

**EFFICIENT, HIGH
PERFORMANCE FOLDING
INSERTING MACHINE**

FPI-2300

FOLDER-INSERTER

KEY ADVANTAGES

Folding/inserting equipment can automate a very time-consuming part of your mailroom process by providing an efficient, cost-effective, and more professional way to prepare your mail package materials. Designed for small to moderate quantities of mail, the FPI-2300 series is fast, and extremely simple to use.

DAILY MAIL FUNCTION

Each model includes a manual feeder for handling daily mail. It enables the operator to feed up to 5 sheets of paper by hand and add an automatically-fed enclosure if desired.

FEEDER SWAP

Inserters equipped with more than one document station can be set up for uninterrupted operation when processing high-volume, single-item mailings with or without enclosures. When one station empties, the other station starts automatically, enabling the first to be refilled without pause.

STANDARD FEATURES

REAL SHEET CONTROL

The safest and most reliable double-feed detector in this inserter class. Performs an actual measurement of paper thickness, eliminating false double-feed messages that document colors and printing can produce with optical detecting sensors. The automatic double-feed detector can be turned off for specific jobs or in each individual feeder.

COLOR TOUCHSCREEN

5.7" color display.

Up to three automatic feeder stations provide maximum versatility and capacity – they quickly and quietly perform a variety of applications, from daily miscellaneous mail to multi-part mass mailings.

MULTI-PAGE FEEDS

Each automatic document station can be set to feed several sheets per envelope. Feed, fold, and insert up to three sheets per job, or up to five sheets using OMR.

FILL & START

Enables anyone to operate the system without special training. Simply select desired functions and let the machine complete all necessary material measurements and adjustments before starting the job. Settings for specific tasks can be saved in the programmable nine-job memory.

FIVE-IN-ONE FOLDING

A sturdy, quiet folding mechanism neatly folds up to five sheets of material in varying sizes.

COMPONENT OPTIONS

OMR

Automatic Optical Mark Recognition (OMR). The inserter can “read” coded marks on documents to reliably determine the number and sequence of documents intended for a single addressee. This is especially useful for mailing multi-page invoices.

SIDE EXIT TRAY

Enhance the professional image and efficiency of all your mailings. The side exit tray automatically connects to the FP UltiMail digital mailing system for easy collating and stacking.

HIGH-VOLUME ENVELOPE HOPPER

Eases the collection of finished envelopes. The time and space saving design delivers filled envelopes to an extra-large, side-mounted envelope hopper.

FPI-2310

The FPI-2310 features one automatic feeder station that allows for multiple document feeding.

FPI-2315

The FPI-2315 features one automatic 8 1/2" x 11" document station that feeds materials page by page and a second automatic station (up to 8 1/2" x 14") feeds envelope-shaped enclosures for assembling multi-part mailings.

FPI-2320

The FPI-2320 is equipped with two automatic document stations that can be set up to feed 8 1/2" x 11" formats, as well as envelope-shaped enclosures such as brochures, flyers, reply cards, or envelopes.

FPI-2325

The FPI-2325 consists of two automatic 8 1/2" x 11" document stations plus an enclosure feeder for assembling multi-part mailings, including letters, flyers, and business reply envelopes.

Functions	FPI-2310	FPI-2315	FPI-2320	FPI-2325
Automatic feeder stations	1	2	2	2
8 1/2" x 11" feeder stations	0	1	2	2
Multiple document feed	yes	yes	yes	yes
Feeder-swap	no	yes	yes	yes
Manual feed for up to 5 sheets	yes	yes	yes	yes
Feed supplement documents (envelope-sized)	yes	yes	yes	yes
Feed a second supplementary document	no	no	no	yes
Programmable job memory	15	15	15	15
Item counter (job/total)	yes	yes	yes	yes
Fill & start function	yes	yes	yes	yes

OMR	no	no	no	yes
Side exit w/ extra capacity envelope hopper	yes	yes	yes	yes
Side exit envelope output for online postage meter connection	yes	yes	yes	yes

SPECIFICATIONS

Document Feeder	
Document width	5.1" to 9.0"
Document height	3.5" to 14.0"
Paper quality	15 lb. to 62.5 lb. (coated/uncoated)
Capacity	325 sheets per station
Sheet/weight w/ multiple-feed	5 sheets (20 lb.) with enclosure
Supplement Feeder	
Small formats	5.5" to 9.5"
Pre-folded supplements	3.5" to 6.3"
Capacity	up to 325 single sheet supplements (20 lb. paper)
Envelopes (with or without addresses; windows)	
Sizes	#10 or 6" x 9"
Capacity	150 envelopes
Folding and Inserting Performance	
Folding	5 sheets maximum
Inserting	2,200 letters/hr. (max)
General	
Fold types	single-fold, Z-fold, double-parallel fold, or C-fold
Programmable job memory	15
Dimensions	16.5" (W) x 20.0" (H) x 47.0" (L)
Weight	165 lbs.
Certification	C, IEC 60950

FP Frankie says

"With lightning fast processing speeds, just think of everything else you could be doing while your mail is taken care of. FPi-2300 = time saver."
